[Intro]

Ladies and gentlemen
I know what you want
She's hot as a stove
Her name is Nicole

I'll do whatever you like
I'll do whatever you like
I can do, I can do
I do, I do whatever you like

What you want?

I'll do whatever you like
I'll do whatever you like
I can do, I can do
I do, I do whatever you like

[Verse 1]

Boy, you want my body
Wanna ride it like a Harley
Once or twice around the block
I bet I'll have you saying whoa, whoa!

First stop, let me pop
Drop like a helicop
Pay attention on me
While I show you the scenario

You charming me boy
Yeah boy, you're charming me
Just like this beat is gonna do
on the radio

Damn, I thought you knew me
by way you're talking to me
You get any closer to me
Then I might just have to let it go

Something 'bout that cocky thing,

you got me wanna see what's really going on

[Pre-Hook]

I do the thing, I do the thing you wanna (Ladies an gentlemen)

Hood up while I show this much, I'll do that for ya

Playing a step

Promise I can make it rain

Lemme see that suger, king

You like that, don't cha

Something 'bout that cocky thing

[Verse 3 - T.I.]

See me in the back
Chick like that
Get you to run around
But i can hear like that

I said you run around
I'm the shit like that
Eat it, beat it, till it's swollen
You gonna need an icepack

I'll tell her big thang poppin'
Let me hear you say that
Lay back, play that,
purp, Kush, blowing in the may back

Work my company
Three year and you're wanting me
Imagine what they done to me
On top of me, up under me

Accept no imitation baby
Other can't be hatin'
And they'll be all in ya face
I mean all in the wussy

See, I can take you on vacation
A weekend ball in the "A"
You hit me up four in the mornin'
What you callin' to stay, shorty

Something 'bout that cocky thing
You got me wanna see what's really going on

[Hook]

I do the thing, I do the thing you wanna (Ladies an gentlemen)

I'm gonna do anything you wanna (I know what you want)
I do the thing, I do the thing you wanna (She's hot as a stove)
I'm gonna do anything you wanna (Her name is Nicole)

I'll do whatever you like
I'll do whatever you like
I can do, I can do
I do, I do whatever you like

I'll do whatever you like
I'll do whatever you like
I can do, I can do
Wait a minute, motherf.....

[Outro]

I've been looking all night,
Wanna kiss you one time
Mommy do what you like
Go head pull it pull it pull it pull it?

First you gotta get it right
I can love you long time
I become a big crime
Then i'll pull it pull it pull it pull it?

What she want it uptight
I promise a goodnight
Girl, you're gonna sleep tight
When I pull it pull it pull it pull it

Wanna look at your eyes
When you get the big prize
Gonna give it a kind
When I pull it pull it pull it pull it
