how do you fake a loving smile  
how do you make truth of lies  
how do you do my old friend  
this song is for you I sing again

where are my pills for broken dreams  
where are my furs my plastic gleam  
please entertain the lights are on

last time around a night burns fast  
bring forth the clown welcome the mass  
two different names on different doors  
a star on mine a note on yours

where are my pills for broken dreams  
where are my furs my plastic gleam  
please entertain the lights are on

come sun  
come rain  
come love seduce me  
black sun  
black rain  
black love seduce me  
seduce me

how do you fake a loving smile  
how do you make truth of lies  
how do you do my old friend  
this song is for you I sing again

where are my pills for broken dreams  
where are my furs my plastic gleam  
please entertain the lights are on

come sun  
come rain  
come love seduce me  
seduce me
