Now lay, now lay, lay, lay
Now lay
(Oh, oh, oh)
Now lay, lay, lay, lay

I gotta to show the beautiful you
Just in case you need it to lean on
This hands I have are for you
Just in case you need help to hold on

The world is just
A super sized merry go round
Sometimes your fingers lose their grip
We all fall down

Don't sit there in the dark
Don't worry your heart
Everything will be fine
If trees fall on your power line

If your wills turn strong
You will always have a home, if your power's out
If the light turns dark
You can stay here in my hear, if your power's out

My food is yours
Take all you want
My bed is yours
Sleep all you want
