"A Lotta Love"

its gonna take a lotta love to change the way things are
its gonna take alotta love or we wont get too far
so if you look in my direction
and we dont see eye to eye,
my heart needs protection and so do i .

its gonna take a lotta love to get us thorough the night
its gonna take a lotta love to make this work out right
so if you are out there waiting i hope you show up soon
you know i need relating, not solitude

gotta lot of love , gotta lot of love

its gonna take a lotta love to change the way things are
its gonna take alotta love or we wont get too far
its gonna take a lotta love,
its gonna take a lotta love..
