Oh bear, oh bear
Oh, where can you be?
Oh bear, oh bear
Oh, where are you hiding?
It's time to go to bed until morning
You've gone without warning
And I cannot sleep without bear
Bear, oh bear
I need you beside me
Bear, oh bear
We're two of a kind
I'm thinking about you
I can't sleep without you

My arms have to hold you
Oh, where can you be?
Oh bear
Mommy takes care of me all through the day
Daddy comes home and then we get to play
You are the one with me all through the night
And if you're not here
Well, that just isn't right
Bear, oh bear
I know I will find you
Here or there
Or under the chair
Then I will hold you and keep you right here
Everythings better when I am with my bear
