

Nields "Fade To Black"

Visit "[Fade To Black](#)" on MotoLyrics.com

You smile at me and I smile right back.
There's nothing to say; Just a laugh track
TV trays and plastic spoons, metal skies and
cardboard moons
You kiss my lips and I kiss yours too.
We sing off key our toothpaste tune
Cartoon kids and cartoons cars make their wish on a
Hollywood star.

There's something inside my head going on for quite a
while
I'm supposed to be wanting you;
All I want is to change the dial...
You take my hand and then take five,
it's videotaped-- never live
Neon signs and neon styles neon smiles and neon
wiles.
You smile at me and I smile right back
there's nothing to say so fade to black.
