Message to all my friends  
I've fallen down again  
Please send help  
Please send your horses and your men  
Please send your very best doctors and lawyers to put  
me together again

Chorus  
I've spent my whole life falling down  
From the stairs I climbed to the boys I found  
Now everybody knows the sound  
Of Jennifer falling down

I wanna be a big girl  
And a little girl for you to hold  
Don't get mad  
Don't roll your eyes and laugh  
I've been twirling around in circles to see which was my  
better half

Chorus

I had no place left to go  
No place left to go  
No place left to go  
No place left to go  
No place left to go  
No place left to go  
So I went down

Chorus
