Well the truth, well it hurts to say
I'm gonna pack up my bags and I'm gonna go away
I'm gonna split, I can't stand it
I'm gonna give it up and quit and aint never coming
back

Girl but before I get to going, I've got to say,
I know you used to love me but that was yesterday,
And the truth, I won't fight it,
When the love stops burning you got to do what's right.

Woh-oh lover lover lover, you don't treat me no good
no more,
Woh-oh, woh-oh lover, lover lover, you don't treat me
no good no more,

Well the truth, yeah it hurts to say,
I'm gonna pack up my bags and I'm gonna go away,
I'm gonna split, I can't stand it,
I'm gonna give it up and quit and aint never coming
back

Girl but before I get to going, I've got to say
I know you used to love me but that was yesterday,
And the truth, I won't fight it,
When the love stops burning you got to do what's right,

But before I get to going, I've got to say,
There was a time, oh woman, when you used to shake
it for me,
But now, all you do is just treat me cold,
Aint gonna take it no more, gonna walk out the door,

Woh-oh lover lover lover you don't treat me no good no
more,
No good no more more more more
Lover lover lover you don't treat me good no more,
Yeah yeah yeah yeah

Lover lover lover you don't treat me no good no more
(Repeated in unison with rest of song and to end)

Well I'd wait up for you almost every night
And I'm hurting so bad cause you don't treat me right
Oh woman, oh woman you know I love you so
But you're so mean to me baby, I'm walking out the
door,
Oh lover, oh lover, yeah-yeah

Woh-oh lover lover lover you don't treat me no good no
more

I know you used to love me in every way
But now I'm giving it up, I'm tired of crying my babe
I can't stand it no longer, it hurts me to say,
But I'm packing up my bags and going far away,
O lover, yeah-yeah

Woh-oh, woh-oh lover lover lover you don't treat me no
good no more
Woh-oh lover lover lover you don't treat me no good no
more
(You don't treat me good no more)
Lover lover lover you don't treat me no good no more
(You don't treat me good no more)
Lover lover lover you don't treat me no good no more
(You don't treat me good no more)
Lover lover lover you don't treat me no good no more
