Welcome to my world!  
Welcome to the inner space of my mind!  
Watch my trophies,  
memories from a long life.

I will give you  
a lesson in how to find new opportunities.  
I will learn you  
how to survive!

This is The First Chapter  
of your new life!

These are no  
delirious fantasies from a wicked man!  
You know the hunger.  
You know you can not stop.

The eternal  
flame of power is shining brighter!  
The moon has risen high,  
and the journey begins!

Lost in the night.  
Lost between the worlds.

You are one of my kind!  
You are a killer!  
You are one of The Damned!  
You are a killer!

I have seen rivers of blood.  
I have flown on the wings of ecstasy.  
I have felt the loss of my greatest love.  
And  
I have given life to many creatures like you.

This is The First Chapter  
of your new life!
