Listen to the echoes from the past
Read the files named "the years of damnation"
Remember the killing white light

Celebrate the Great Victory
Our cradle/sector 63 S
Annihilate what's left of Christianity
You're now in the hands of Satan

Annihilate the old world
You're now entering a new era

Forever/you have to understand
Darkness/ this is just the beginning
Great pleasures are waiting for you/our allied
You/the masters of the universe

Hail Satan

Forever we have been warriors
Fighting for our inborn needs
We/the descendants of the Oldest One

Celebrate the Great Victory
Our cradle/sector 63 S

...remember this turning point
In our neverending history

...read the files and learn
