"All American"

Visit "[All American](#)" on MotoLyrics.com

what can i produce when i'm not with you
she said i know it must be hard to be without me
and i can see that she's fallen in love
with the baseball team i don't know what other people
bring
i don't care what other people think
i don't know what my self lacks
i want to ask you when you are getting back
i don't know what i've been told
i'll never grow up never grow old
i can't dig up the whole sand
heard i've been sold heard i've been banned
i know now that i can't count on you now
what is this i see she's heading for me
she said i can't be who i want to be
but can't you see that i'm not the all american student
you don't have to try try to prove it
