Well I've been drinking for days and I'm happy to say
That we've been leading you on so you'd do it our way
You've had a little success but aren't too hard to
impress
So raise your standards, change your number
It's for the best

And though I don't want you to stay
There's something about the way that
You say the words that you've rehearsed
I think I should explain
Things aren't gonna change
And last October when it took over
The boy was grabbed by his new controller
I'm shifting all the blame
But I still feel the same

I didn't know what to say when I saw you alone
You say you do what you want but you do what you're
told
I fell in love with your gaze, I fell in love with your name
We need to know what to say if we're playing your
games

And though I don't want you to stay
There's something about the way that
You say the words that you've rehearsed
I think I should explain
Things aren't gonna change
And last October when it took over
The boy was grabbed by his new controller
I'm shifting all the blame
But I still feel the same

And though it makes no difference I still know that
It's got nothing to do with the way I am around you
