Welcome to the broken low
Welcome to the famous disco live

Come on lady come and go
Come on lady get me once and right

Not a danger, not a blacky stranger
Rock it - rock it - knock to my door I'll open
Speak my name now, speak if it you know how
Fly to me, get ready for the

Night of fire, you've better better stay
You've better better begin the prayer to play
Night of fire, come over over me
Come over over the top you've never been here

Night of fire, you've better better stay
You've better better begin the prayer to play
Night of fire, come over over me
Come over over the top you'll have a night of fire

You'll have a night of fire

Welcome to my rocky show
Welcome to the fire of the night

Come on baby let it go
Come on baby let me stick you tight

Not a danger, not a blacky stranger
Rock it - rock it - knock to my door I'll open
Speak my name now, speak if it you know how
Fly to me, get ready for the
