"Invisible"

Visit "[Invisible](#)" on MotoLyrics.com

We'll be together forever
Without you I'm sure I will never
Live through the day, you're the lifeblood in me All of
the days I've been living
I never took, always giving
Take me for granted I'll always be here
For you Tell me something more to tell you
We're only talking if it matters to you
Tell me something more to tell you I wish I could be
more than no one
I know this game, it will go on
I am one of the pawns and you're always the king Tell
me something more to tell you
We're only talking if it matters to you
Tell me something more to tell you I am so lonely
without you
When I am alone I'm beyond blue
I am the jester in the kingdom of you Tell me
something more to tell you
We're only talking if it matters to you
Tell me something more to tell you Tell me something
more to tell you
We're only talking if it matters to you
Tell me something more to tell you
