I'm losing you  
This is an ill dream  
Invisible so

Gone  
I chose for You  
A lonesome place  
So quiet  
and beautiful  
A lonesome place

I've lost you, gone  
You died lonely  
I killed you  
Silently

You died in a dream  
Lost paradise for you  
This is my vengeance

For your faith in God

I killed so suddenly

The funeral for you  
Without witnesses and ceremony  
In green paradise  
You were so naked  
The funeral for you  
Without hope or a priest  
In green paradise  
You were so beautiful

I am the way for you
