We wear the color of the night  
We are the crushers of the light  
We are clad metal and leather  
We are the warriors of demon metal

Demon metal! Demon blood!  
Demon metal! We are of demon blood!  
Demon metal! Demon blood!  
Demon metal! We are of demon blood!

We carry the flag of blasphemy  
Desecrate the virgins with sodomy  
We re-crucify Jesus-Whore  
We reign here evermore!

As long as I will breathe  
There is Satan's blood in me  
We are demons in human form  
You are the ones whom we scorn

Demon Metal!

Demon metal! Demon blood!  
Demon metal! We are of demon blood!  
Demon metal! Demon blood!  
Demon metal! We are of demon blood!
