Dark moon in the horizon  
A sign of evil returning  
Fire that purified millions  
Shall be lit again!

Summon the holocaust  
Light the black purifying flame  
Summon the holocaust  
The cleansing fire of Satan's kingdom

The scent of burning human flesh  
Nauseating, but so tempting  
Purification of a nation  
The purest form of annihilation

Summon the holocaust  
Light the black purifying flame  
Summon the holocaust  
The cleansing fire of Satan's kingdom

Summon the holocaust

Burn the christians  
...And see their crosses in flames  
Burn the jehovah  
...Feed the holy ones with gas

Summon the holocaust

Burn the christians  
...And see their crosses in flames  
Burn the jehovah  
...Feed the holy ones with gas
