

## Nightwish "A Final Dream"

Visit "[A Final Dream](#)" on MotoLyrics.com

Lay your head down  
And sleep on my shoulder  
Lay your head down  
And start a new dream

And for tonight the moment is over  
Drift in a lullaby  
Here where the stars reside  
And angels are always seen

Lay your head down  
The stars they have whispered  
Hear what they say  
And know that it means

The moon is your guide  
The stars they have kissed her  
As she goes gently by  
Light as a baby's eye  
Safe on a fairytale stream

And start a new dream
