Close your eyes  
Feel the ocean where passion lies  
Silently the senses  
Abandon all defenses

A place between sleep and awake  
End of innocence  
Unending masquerade  
That's where I'll wait for you

Hold me near you  
So close I sear you  
Seeing, believing  
Dreaming, deceiving

A place between sleep and awake  
End of innocence  
Unending masquerade  
That's where I'll wait for you

Sleepwalker seducing me  
I dare to enter your ecstasy  
Lay yourself now down to sleep  
In my dreams you're mine to keep

(Sleepwalk with me)

Sleepwalker seducing me
