Today I killed, he was just a boy  
Eight before him, I knew them all  
In the fields a dying oath  
I'd kill them all to save my own

Cut me free, bleed with me, oh no  
One by one, we will fall, down, down  
Pull the plug, end the pain, run'n fight for life  
Hold on tight, this ain't my fight

Deliver me from this war  
It's not for me, it's because of you  
Devil's instant my eternity  
Obey to kill to save yourself

Cut me free

I envy the nine lives that gave me hell  
My path made up by their torn bodies  
Man to man, soldier to soldier, dust to dust  
Call me a coward but I can't take it anymore

They wait for me back home  
The live with eyes turned away  
They were the first ones to see  
They are the last ones to bleed

The ultimate high as all beautiful dies  
A ruler's tool, priest's excuse, tyrant's delight  
I alone, the great white hunter  
I'll march till the dawn brings me rest  
10th patriot at the gallows' pole

Cut me free
