"My Love"

Visit "[My Love](#)" on MotoLyrics.com

I have enough now, I'm breathing free
I have enough of the virtual romance,
Wait for the sound like you're waiting for me,
My love is taking a chance

I need to love as i need to breath
I need this feeling burning inside me
You know you are my soul, you are my lips
All your life you wanted to find me

It's my turn to save you, I will show you the way
I'm taking off my dress, I am here to stay
You are so close, you are the one I will obey
This is a new kind of game, let's play!

My love is saving the world,
My love is better than gold
My love is burning in cold
Saving my love, I'm saving the world

It's more than love between me and you,
It is a wild unstopable fire,
you wanted me but you never knew,
how to control my desire

And I am giving my heart to you
You can be far but I feel you near
You need to know that I am going to prevent my love is so real

It's my turn to save you, I will show you the way
I'm taking off my dress, I am here to stay
You are so close, you are the one I will obey,
This is a new kind of game, let's play!

My love is saving the world,
My love is better than gold

My love is burning in cold
Saving my love, I'm saving the world

My love is saving the world,
My love is better than gold
My love is burning in cold
Saving my love, I'm saving the world

My love is saving the world,
My love is better than gold
My love is burning in cold
Saving my love, I'm saving the world

It's better than gold
Burning in cold
Saving my love
I'm saving the world

It's better than gold
Burning in cold
Saving my love
I'm saving the world
