"I Got You"

Visit "[I Got You](#)" on MotoLyrics.com

I been waiting for a long time
For someone who could make my dreams come true
You been with me for a long time
Helping me through all that I had gotten through

And I'm thankful for everything you do for me boy
And you know that I love you...
I'll take care of anything you'll ever need

CHORUS:

When you're all by yourself baby I got you
If you need someone, call baby I got you
There no need to be lonely I got you
And I know that you got me too boy

When you smile at me
It makes me weak
I can count on you boy
To be there when I fallen
I didn't have to change for you to see
That nothing can ever come between you and me
I need you for who you are
And all that I am
When im standing next to you
Im so lucky to have you in my life...

CHORUS:

When you're all by yourself baby (I got you)
If you need someone, call baby (I got you)
There no need to be lonely I got you
And I know that you got me too boy (baby)

Your heart is with me
And with nobody else
Im trying to keep my cool
But I can't help it
I can't image life without your love
Now and forever you're all that I'm thinking of...

When you're all by yourself, (I got you)
There no need to be lonely

And I know that you got me too baby...

CHORUS:

When you're all by yourself baby (I got you)
If you need someone, call baby (I got you)
There no need to be lonely (I got you)
And I know that you got me too boy

CHORUS:

When you're all by yourself baby (I got you)
If you need someone, call baby (I got you)
There no need to be lonely (I got you)
And I know that you got me too boy

When you're all by yourself (I got you)
If you need someone call me I got you...
(start fading)
And I know that you got me too...
