"Nowhere"

Visit "[Nowhere](#)" on MotoLyrics.com

You're lookin' at me
You see me cry
And something tells me
You didn't watch me die
Since you don't care
How could I breathe your air?
I'll go anywhere, as long as you are never there

Where ever you go
I don't want to know
Cause every time I'm with you
Might as well be nowhere
I wanna be far
From where you are
It seems like when I'm with you
We are going nowhere

In the moment of the night
We move closer and we cry
You won't know
Where I go
With the moonlight on my side
Leading me out of your life
All I know
Is I won't buy another ticket to nowhere
Nowhere, nowhere
How could I let you take me to nowhere
Nowhere, nowhere, nowhere
How could I let you take me to nowhere!

We're slowly sinking
We're near the edge
How is the rest of me surviving
When my heart is dead
We're falling down
I'll never hit the ground
I don't know where you're going
Just let me out

Where ever you go
I don't want to know

Cause every time I'm with you
Might as well be nowhere
I wanna be far
From where you are
It seems like when im with you
We are going nowhere

In the moment of the night
We move closer and we cry
You won't know
Where I go
With the moonlight on my side
Leading me out of your life
All I know
Is I won't buy another ticket to nowhere
Nowhere, nowhere
How could I let you take me to nowhere
Nowhere, nowhere
How could I let you take me to nowhereâ€¦

We're doing circles
Spinning out of control
No destination
There's no one to interrupt
Nowhere
We ended up no whereeee~

In the moment of the night
We move closer and we cry
You won't know
Where I go
With the moonlight on my side
Leading me out of your life
All I know
Is I won't buy another ticket to nowhere
Nowhere, nowhere
How could I let you take me to nowhere
Nowhere, nowhere
How could I let you take me to nowhereâ€¦
