Its a perfect day
The coolest breeze
Not a cloud in the sky
casts a shade on me
Colours shining bright
Oh, Its so surreal
And on this perfect day
I got lost
Get me out of this confusion
Im falling apart
Ive got an aching heart
Im so out of place

Chorus
And what I feel
Makes me break down and cry
How it hurts
How it multiplies
It's not a temporary pain
Cause it sticks like glue forever
So I carry on
Pretending Im okay

On a perfect day
Im drowning in memories
Throw me a lifeline, dont think its my time
And I can hardly breathe
Oh, why did you have to leave
On a perfect day

Chorus
And what I feel
Makes me break down and cry
How it hurts
How it multiplies
It's not a temporary pain
Cause it sticks like glue forever
So I carry on
Pretending Im okay

We all know that you're not a lonely heart

We cant stand the laws
You're watching over us, taking care of us
Until we meet again, my friend
You are everything to me and I love you for it
But now youre gone
And what I feel
Makes me break down and cry
How it hurts
How it multiplies

And what I feel
Makes me break down and cry
How it hurts
How it multiplies
It's not a temporary pain
Cause it sticks like glue forever
So I carry on, so carry on, I carry on
It'll be okay.
