[Verse 1]

Nothing seems to matter  
When we are together  
There is no way I could ever hide  
The love I have for you inside

[Verse 2]

Baby I've been waiting  
For you to hear the beating  
Of this heart who can no longer hide  
The feeling shines as times goes by

[Refrain]

Say to me that you feel the same  
Don't you keep from me  
How it seems to be  
Baby show the way to get  
Through your door  
And let me know the kind of guy you'll be  
If only you are mine

[Chorus]

Oh boy, did you whisper in my ear  
The words I've been waited long to hear  
Will you just hold my hand and embrace me tight  
Oh boy, I hope it won't just a dream  
Or another dream in my sleep  
When I opened my eyes and see you boy

Now you make me wonder  
How you got the power  
To control my mind and make me fly  
That I'm with you above the sky

[Refrain]

Say to me that you feel the same  
Don't you keep from me  
How it seems to be  
Baby show the way to get  
Through your door  
And let me know the kind of guy you'll be  
If only you are mine

[Chorus]

Oh boy, did you whisper in my ear  
The words I've been waited long to hear  
Will you just hold my hand and embrace me tight  
Oh boy, I hope it won't just a dream  
Or another dream in my sleep

[Bridge]

The day you came up to me  
You smiled and said hello  
And then I felt myself falling for you  
More and more oooh

[Refrain]

Say to me that you feel the same  
Don't you keep from me  
How it seems to be  
Baby show the way to get  
Through your door  
And let me know the kind of guy you'll be  
If only you are mine
