Many days many nights I sit and think about
All the love and the joy that you bring
Then I laugh out loud
And I crack a smile
Oh boy you don't know what you do to me

Its a shame that you're so far away
I got used to your face every day
I'm so sick and tired cuz I'm missing you

I try to pretend that its all in my mind
Can't hide all this pain that I'm feeling inside
I tried and I tried and I tried and I tried
I told you I'm not gonna cry but I lied
I can't be without you
I can't be without you
I can't be without

We were almost there
We were on our way
Everything was alright til you went away
I know we both share the same mind but not the space
I said I'm not gonna cry but now I'm in a different place
now babe

Go back to how it once was
I know I said I was cool but
I'm sick and I'm tired cuz I'm missing you

Now to all my ladies
Do you understand
Cuz I can't go another hour
Not without my man boy you know I

I try to pretend that its all in my mind
Can't hide all this pain that I'm feeling inside
I tried and I tried and I tried and I tried
I told you I'm not gonna cry but I lied
I can't be without you
I can't be without you
I can't be without

I don't even know why I can't get you out of my head
I don't even know why it feels like I'm hurting so bad
I don't even know why why I'm feeling like this
Oh baby baby baby baby
Wish you were right here instead

I try to pretend that its all in my mind
Can't hide all this pain that I'm feeling inside
I tried and I tried and I tried and I tried
I told you I'm not gonna cry but I lied
I can't be without you
I can't be without you
I can't be without
