"Get You Outta By Heart"

Visit "[Get You Outta By Heart](#)" on MotoLyrics.com

If time's really supposed to heal anything
Then why am I so torn up inside
Just because I saw your face

Thought that I was over you being everything
But here I am feeling like I could die
Guess I wasn't that ok

I know it's over and done with you and me
Could this really be reality
I tried and I cried and I lied to long
To just let it die

Maybe I'm not over
The thought of us, I fought enough for
Maybe I'm not as tough
As I thought I was, I thought I was, yeah
Maybe I'll fall in love
With someone else, just because
I would do anything, anyhow, anyway, baby
To get you out of my heart

It's like I try to get you out of my memory
It seems like the harder that I try
Everything reminds me of you

You're like that song that I hate, but your melody
Keeps on playing through my head at night
I try to block it out but it still comes through

I know it's over and done with you and me
Could this really be reality
I tried and I cried and I lied to long
To just let it die

Maybe I'm not over
The thought of us, I fought enough for

Maybe I'm not as tough
As I thought I was, I thought I was, yeah
Maybe I'll fall in love
With someone else, just because

I would do anything, anyhow, anyway, baby
To get you out of my heart

Everyday I pray that I forget it all
But your something that I trust, can't forget it all
And I can try to tell myself I don't care at all
But I know if I see you, it all comes right back

Maybe I'm not over
The thought of us, I fought enough for
Maybe I'm not as tough
As I thought I was, I thought I was, yeah
Maybe I'll fall in love
With someone else, just because
I would do anything, anyhow, anyway, baby
To get you out of my heart

Maybe I'm not over
The thought of us, I fought enough for
Maybe I'm not as tough
As I thought I was, I thought I was, yeah
Maybe I'll fall in love
With someone else, just because
I would do anything, anyhow, anyway
I would do anything, anyhow, anyway
I would do anything, anyhow, anyway, baby
To get you out of my heart
To get you out of my heart
To get you out of my heart
To get you out of my heart
