IÂ've been searching, never find it
Something more than my heart and my day
I wanna feel it, I wanna feel it now
For emotions that can not add up
So meet me in a science book
Tonight I can feel it, I think itÂ's here somehow

Chorus:
Cause I know you know when we touch the universe
explodes in us
I never knew to feel a thing
Until I added you and me
ItÂ's way beyond where the stars are, stars are baby
That is where our hearts are baby
Your eyes to me, are bluer than infinity
Lets take it past the limit never, never baby
Making last forever baby
Baby, baby, baby, baby,
Baby, baby, baby, baby,

Every single grain of sand, a thousand suns, a million
planets
ThatÂ's what IÂ'm feeling, thatÂ's what this feeling is
Every breath until the end of time
The future, past, all combined and
ThatÂ's what IÂ'm feeling, thatÂ's what I feel in every
kiss

Chorus:
Cause I know you know when we touch the universe
explodes in us
I never knew to feel a thing
Until I added you and me
ItÂ's way beyond where the stars are, stars are baby
That is where our hearts are baby
Your eyes to me, are bluer than infinity
Lets take it past the limit never, never baby
Making lights for ever baby
Baby, baby, baby, baby,
Baby, baby, baby, baby,

Tonight your eyes caught mine, our love stopped time
Magic, science, tell me anything, I ainÂ't buying
Cause IÂ've seen what forever is
(Tonight)
I got an angelÂ's touch and felt heavenÂ's bliss
(Tonight)
And IÂ've got some facts for these Wessimists
I love Â… cause IÂ'm never quitting

Chorus:
I never knew to feel a thing(?)
Until I added you and me
ItÂ's way beyond where the stars are, stars are baby
That is where our hearts are baby
Your eyes to me, are bluer than infinity
Lets take it past the limit never, never baby
Making lights for ever baby
Baby, baby, baby, baby,
Baby, baby, baby, baby,
Tonight, infinity
