Heyyy

Once upon a time when I was yours and you were mine
It felt like we were meant to be, forever more
Used to talk and laugh and say it seemed like we had everything
You gave me all your heart but I wanted more
Don't know why I felt the way I did
I was convinced that, that we had ended
This was the end so
So I thought that time would tell if we were supposed to be
But you found another, now I wish it was me

Wish I would, wish I could, but it doesn't
do me any good
How I wish you understood what's in my heart
Let it ride, let it slide, kept my feelings hidden deep inside
Now I'm running out of time regret number 99

Oooh yeah, regret number 99
Yeaaaaah

Just the other day I saw you walking with another girl
You were holdin hands and looked so in love
Tried to get you off of my mind so many times
But I guess it's just not enough

So I lie awake at night and think of all things that I have done if I had known that you leave
But all the could-have-beens and should-have-beens don't change the fact
That you're not with me

Wish I would, wish I could, but it doesn't
do me any good
How I wish you understood what's in my heart
Let it ride, let it slide, kept my feelings hidden deep inside
Now I'm running out of time regret number 99

Heeyy, regret number 99

Yeahhh

Mirror mirror on the wall

How'd you let me lose it all?

Couldn't he love, let it go

I feel so alone

Can't believe it's said and done

I wanted you to be the one

And every time I see your face

Wish you wouldn't have got away

Wish I would, wish I could, but it doesn't

do me any good

How I wish you understood what's in my heart

Let it ride, let it slide, kept my feelings hidden deep inside

Now I'm running out of time regret number 99

Mirror mirror on the wall

How'd you let me lose it all?

Couldn't he love, let it go

I feel so alone

Can't believe it's said and done

I wanted you to be the one

And every time I see your face

Wish you wouldn't have got away

Wish I would, wish I could, but it doesn't

do me any good

How I wish you understood what's in my heart

Let it ride, let it slide, kept my feelings hidden deep inside

Now I'm running out of time regret number 99

No no no no

Regret number 99
