ohhh ohhh
mmmmmm
Ohhhhhh ohhhh
ohhh yeah
I Only thought of you and me and never anything else
The time we spent together kept me sane
You helped me to be myself
What I didn't realize
Is that the distance was breaking your heart
You put on your best disguise
But it was tearing you apart baby
It was....
selfish.....
Of me to give you my love
Or tell you that we would never be undone
Selfish.....
To want you here every day
When we both knew we were much too far away
selfish...
To think there was nothing wrong
With me helplessly hanging on to you
Selfish...
My heart was stuck in the denial
There were too many miles between us
Didn't wanna hurt'cha baby
Never meant to hurt'cha baby
(didn't wanna hurt'cha baby)
Didn't want to hurt'cha baby
(I'm sorry baby)
never meant to hurt'cha baby
listen
when I am on a telephone I hear you say goodnight
Was probably the best way to keep this commitment
alive..
after all the fantasies
i couldn't see past what could it be? (oh)
You were a part of me but unhappy to be it had to wait
Cuse it was...
selfish...
Of me to give you my love

or tell you that we could never be undone

Selfish...
To want you here everyday
when we both knew we were much too faraway
Selfish..
To think nothing was wrong
(sorry)
With me helplessly hanging on to you
selfish...
My heart was stuck in the denial
there was too many miles between us
(oh...)
tell me how could it be that I loved you with all my heart
But I was heartless
I want to believe theres still something
that was right in front of me
Oh lord take this misery away...
away...
It was.....
selfish...
Of me to give you my love
Or tell you we would never be undone
(It was so)
Selfish...
To want you everyday
(It was so)
when we both knew we were much too far away
Selfish..
to think there was noting wrong
(Nothing wrong with me hanging on to you)
with me helplessly hanging on to you
selfish...
My heart was stuck in a denial
there was too many miles between us
Didn't want to hurt'cha baby
Never meant to hurt'cha baby
(Never meant to hurt'cha baby)
Oh
Didn't wanna hurt'cha baby
Never meant to hurt'cha baby
(Oh...)
