It got stanger by the day
Even worse it's outa sight
And we've never ever spoken since

Every moment comes to me
Opportunities do lie
But it'll be another weekend drought

Come on, come take my hand
Give it all back no use for words
It's all cliché

Let's live for tomorrow
Let's live for tomorrow
But tomorrow never came

It's two weeks long and now you're gone
But i'll pretend that i'll be strong for you (whoa)
I never slipped you never cared what you did wrong
And now i'll be back looking out
For you (whoa)

Just a small amount of time
And we'll be talkin' face to face
I'm looking forward for your pretend smiles

And i hope you'll be hearing this
From the radio by your side
For all it's worth, you did leave me behind

Come on, come take my hand
Give it all back no use for words
It's all cliché

Let's live for tomorrow
Let's live for tomorrow
But tomorrow never came

I thought that life would be, better by your side
But it turned out that i was never right
