Walls close in on me  
Paralyzed by fear  
Claustrophobic reality  
Breed the menace  
Create the enemy

Every face on every street  
Threatening our very being  
Lurking ready to attack  
Waiting for that final blast - Jihad!

Paranoia  
Phobia

Walls close in on me  
Paralyzed by fear  
Claustrophobic reality  
Crave the menace  
Embrace the enemy

Is this your new world order?  
Paradigm shift  
is this your new world order?  
Paradigm shit

Weapons of mass deception  
Shadows of a global threat  
Cannot fodder for religion  
Pouring fuel into the flames

Paranoia  
Phobia
