I'm just a child

In an aging world

Ready to explode

To fuck you all

Exiled

Alien

Outcast

I'm the enemy

Every mothers fear

Too young to die

Too old to care

Exiled

Alien

Outcast

[Chorus (x2):]

Look at me

What I've become

Hersey

I'll bow to none

Lighting up the sky

In a burning rage

Being crushed alive
By the wheels of fate
Sniffing through the dirt
Seeking inspiration
Saying my last prayer
To a loaded gun
Have I gone insane
What am I saying
Chasing my own tail
Like a dog on cocaine
Vomiting words
To relive the pain
Shooting my shadow
Before it gets real
Laughing in your face
Then I disappear
Have I gone insane
What am I saying
[Chorus x2]
