Pray for rain to fall endlessly  
Wipe the dirt, cleanse and purify  
Purge our sins, set the earth free  
Cover our shame, spawn a new time

Open the gates  
Bring on the tides  
Drown this deranged life  
Open the gates  
Bring on the tides  
Unleash the deluge

Pray for rain to wash all pain away  
Flood the stage of human misery  
Buried dreams of divinity  
Life erased, vain and futile

Open the gates  
Bring on the tides  
Drown this deranged life  
Open the gates  
Bring on the tides  
Unleash the deluge

Desolated, depopulated  
Apocalypse done  
Decimated biblical plague  
No kingdom come  
Sun shall rise, a new day arrives  
In silent splendor  
Divine emptiness, godless paradise  
A barren wasteland

Open the gates  
Bring on the tides  
Drown this deranged life  
Open the gates  
Bring on the tides  
Unleash the deluge
