Beheading the beast  
The souls of the dead shall rise  
Craving their vengeance  
The final confrontation  
A nation in chaos  
A casualty of history  
Hostage to the course of time  
Ideologies obsolete

A thousand heads  
Growing on the wounded hydra  
A thousand heirs  
Claim the empty throne  
All-out war  
To perpetuate their reign  
Drowning in violence  
They reap what they have sown

Gates of chaos open wide  
Justice done for those who died  
Atonement for genocide  
Tyrannicide

A new reign of terror  
Casts it's shadow  
The pendulum swings  
Equilibrium shattered

Open the floodgates of rage  
Unleash a tide of blood  
Behold their furious vengeance  
Judgement day has come

Gates of chaos open wide  
Justice done for those who died  
Atonement for genocide  
Tyrannicide
