Hey when we first met
I thought that time had come for me to die
But now I see that you had come to bring in here new
life
To think that I hear music that I never knew could be
To think that I could see new things I never would have
seen

I will wish for you the best
I can see in you
While I watch you sleeping

We've got so much time
We've got time
We've got so much life
We've got life to live

And life is full of complicated situation, hush
I'll bring you tea in mornings when you feel you have to
rush
Affection is not real although I felt it with you near
So stay with me while we grow older live life with no
fear

I will wish for you the best
I can see in you
While I watch you dreaming

We've got so much time
We've got time
We've got so much life
We've got life to live
To live, to live, to live

We've got so much, so much time
We've got so much time
We've got so much, so much time
We've got so much life
We've got so much, so much time
I will wish for you the best
We've got so much, so much time
I can see in you in you

While I watch the clouds go on the sky
We've got so much time
We've got time
We've got so much life
We've got so much time
We've got time
We've got so much life
We've got life to live

La la la la la...
