Your love hides like a dark star
Shining, hidden in fear, strangers feeding
Upon your soul, call me on through the darkness

Hold me deep in your heaven
Touch me with fingers of velvet blue
Fingers of misty blue

Feelings deep as the ocean
Cold waves whisper their warning
Danger walks with a fragile heart

Got to have a heart of steel
Heart of steel
Yeah, heart of steel

You journey through my mind
Over the walls of pain, angels of lust
Guard my domain while dark eyes

Shine in the mirror, searching for someone
Strangers, cold as the winter wind
Fade away

Got to have a heart of steel
Heart of steel
Got to have a heart of steel
Heart of steel

Lonely freedom, eyes on pain
Tears will fall like silent rain
Hearts will shatter, feelings fade
Somehow it always seems the same

My love hides like a dark star laughing
Hidden in silence, strangers cold as the winter wind
Fade away

Feelings deep as the ocean, cold waves
Whisper their warning, danger walks
With a fragile heart, walks with a fragile heart

Got to have a heart of steel
Heart of steel
Got to have a heart of steel
Heart of steel

'Cause the feelings come and go
And you never really know
If the feeling's ever real
So you got to have a heart of steel

You got to have a heart of steel
