Deep blue in ultraviolet
I'm the pilot of these stars
My world is in slow motion
Frozen ocean rain of fire

We make love
And as we do it's strange and violent
I feel you
Coming through in waves of ultraviolet

Unlock the door to your mind
Let's see how high you can fly
Come on, come on I'll take you all
I am the pilot of the star chamber

You burn as I explore you
Deep within your waves of fire
You dream but I'm the master
Flying faster breathing
fire

We make love
And as we do the sky is starlit
I feel you
And as I do your ultraviolet

Unlock the door to your mind
Let's see how high you can fly
Come on, come on I'll take you all
I am the pilot of the stars

We make love
And as we do it's strange and violent
We make love, make love, make love
We make...

We make love
And as we do it's strange and violent
I feel you
And as I do your ultraviolet

Unlock the doors to your mind
Let's see how high you can fly

Come on, come on I'll take you all
I am the pilot of the stars

Close your eyes and come inside
Let's see how high we can fly
Come in, come on I'll show you all
I am the pilot of the star chamber
