Deep blue in ultraviolet  
I'm the pilot of these stars  
My world is in slow motion  
Frozen ocean rain of fire

We make love  
And as we do it's strange and violent  
I feel you  
Coming through in waves of ultraviolet

Unlock the door to your mind  
Let's see how high you can fly  
Come on, come on I'll take you all  
I am the pilot of the star chamber

You burn as I explore you  
Deep within your waves of fire  
You dream but I'm the master  
Flying faster breathing  
fire

We make love  
And as we do the sky is starlit  
I feel you  
And as I do your ultraviolet

Unlock the door to your mind  
Let's see how high you can fly  
Come on, come on I'll take you all  
I am the pilot of the stars

We make love  
And as we do it's strange and violent  
We make love, make love, make love  
We make...

We make love  
And as we do it's strange and violent  
I feel you  
And as I do your ultraviolet

Unlock the doors to your mind  
Let's see how high you can fly

Come on, come on I'll take you all  
I am the pilot of the stars

Close your eyes and come inside  
Let's see how high we can fly  
Come in, come on I'll show you all  
I am the pilot of the star chamber
