Revolt towards corruption, towards pain.
Flee existence, flee sanity.
Yeah towards denial, towards self mutilation.
Self mutilation.
Apathetic selfish destruction, ah woe (4x)
Flee life, your dysfunctional evolution of mind, body,
soul, spirit is death.
Nothing is nothing, or so you say.
Everything becomes everything, or so you say.
Its all nothing to you, so just run and hide away.
Its all nothing to you, so just run and hide away.
Why try? why even try?
If death is nothing, but decaying flesh.
What's to live for? nothing.
Apathetic selfish destruction, ah woe (10x)
Apathetic selfish destruction.
