Monkey see, monkey do.
That's how i see the world today, yeah.
Monkey see, monkey do.
That's how i see the world today, yeah.
There split in two. i can't comprehend it.
There split in two. i can't comprehend it.

Your filling yourself with drugs and alcohol,
Trying to fill that cavity that's in you.
Your lying down, trying to call me for help but no one's
home.
You sit and wonder why your life is all screwed up.
And you say. "i don't deserve this."
Don't go blaming the world for your problems. for your
problems.
You've got to take responsibility.
Take responsibility. take responsibility. take
responsibility.

Monkey see, monkey do.
That's how i see the world today, yeah.
Monkey see, monkey do.
That's how i see the world today, yeah.
There split in two. i can't comprehend it.
There split in two. i can't comprehend it.

He'll start the fire that once burneth inside of you.
Don't give up hope, He'll never leave you.
You've got to take responsibility.
Take responsibility (7x)
Ah yeah. go!

Monkey see, monkey do.
That's how i see the world today, yeah.
Monkey see, monkey do.
That's how i see the world today, yeah.
There split in two. i can't comprehend it.
There split in two. i can't comprehend it.
