There I was sticking my neck into the neck of a woods  
That's never been good to me  
Lord what on this earth did I expect to see  
There could have been rain, could have been a bear  
Could have been a mess of things that just weren't  
there  
But all and all that my eyes could see  
Is orange leaves a fallin' down  
But hey we could make it to the warm  
If our hearts can just be strong  
And give back what belongs to yesterday  
Summer in the woods never stays on like you offer it to  
When the hasty fall leaves it's like a postcard can make  
it out to be  
We get a mess of snow, forget about the warm  
Run and get your winter's best we're facing up a storm  
And all that my eyes can see is  
Heavy snow a fallin' down  
But hey we could make it to the warm  
If our hearts can just be strong  
And give back what belongs to yesterday  
Roll out the tinder box this winter could be long  
And I feel this storm might not be the last to come  
Heavy snow a fallin' but I hear a spring time calling me  
home  
Hey we could make it to the warm  
Hey we could make it to the warm  
Hey we could make it to the warm  
If our hearts can just be strong  
And give back what belongs to yesterday
