Everywhere you look you see a world so bright and new  
And everywhere you look to see the sun that shines  
over you

Every now and then you feel there's nothing you can do  
In this world you seem to be all alone and life's got a  
hold on you

But all you have to do is close your eyes

Just think of it (oh baby)

And we'll be there for you (you... you...)

So not the time has come to let us in believe (oh baby)

And now the world belongs to you

[refrain]

Just believe we're loving you and there ain't you can't  
do

Just believe we'll be there for you and the world  
belongs to you

Just believe we'll miracles lets make it all come true for  
you

Everywhere you walk, you walk in love hand in hand

And anything you want your dream will be yours

When you're in command

Just in case you feel alone and there's nothing more to  
do

Just believe we'll live inside the hall's of me and you

And all you have to do is reach your back and touch the  
sky

And we'll be there for you you and you

So now the time has come to make it start from the  
heart

And all the world belongs to you

Now we must join as one

Lets give to a cheering time

The world will be so lonely

It's up to us to make a change

If you all just remember that we are all the same

Just believe

[repeat]
