"Misrepresented Representation"

Honesty is dealt a fatal blow
Mislead by governments false conduct
Trapped in confusion
Open your eyes, and see the truth
False authorization
Mistaken for standards with false appeal
Democracy by the people, warped concentrations
Misrepresentation of morals, a nation who's god is left
on the shelf
Consumed with the lust of money, scarred soldiers in a
losing fight
Truth of Christ is lost, country eating itself away
Misrepresented representation
A nation that will drive into the ground
