Nirvana ''Don't Want It All''

To hope is admittance

Feed before beginning

Double-sided cynics

Reflected image

Don't be so selfish

Leave in me this

Follow it far

To find where you are

You haven't grown

Go on alone

Never finished his sentence

Remained in seclusion

For the next few days

The family circle noose

He had removed us

All the styles of heresy

Finally he appeared unexpectedly

Looking for company
