I am my own parasite
I don't need a host to live
We feed off of each other
We can share our endorphins

Doll steak, test meat

Look on the bright side is suicide
Lost eyesight I'm on your side
Angel left wing, right wing, broken wing
Lack of iron and/or sleeping

I own my own pet virus
I get to pet and name her
Her milk is my shit
My shit is her milk

Test meat, doll steak

Look on the bright side is suicide
Lost eyesight I'm on your side
Angel left wing, right wing, broken wing
Lack of iron and/or sleeping

Doll steak, test meat

Look on the bright side is suicide
Lost eyesight I'm on your side
Angel left wing, right wing, broken wing
Lack of iron and/or sleeping
Protector of the kennel
Ecto-plasma
Ecto-skeletal
Obituary birthday
Your scent is still here in my place of recovery
