It's an alliance...
It's another lie... I'd say

Fall in love tonight
Even if my eyes
Even though sometime
I'm burning out tonight

It's another thing that I'll write
Feeling like I'll die by myself
Why?

It's mad enough tonight
And for it's never cold

It's not a right
When I can, nevermind
It's all mine...
It's all mine...
Inside I hide

But I'd never mind...

Then... I said...
Minerals will make... the world
If we did not have chemicals
You would not be writing my...
Death...
Certificate

Fighting is my friend
My dog left me
Yes I'm sad
One more day, then I can climb inside, safe from you?

Fighting isn't my friend
When I will never have my friend
Fighting silence as a friend
I'm silent and I can't turn it around

And she improvised
Cause she was supervised

And I was idolized
I was idolized
For those... For those... For those...
I was aroused and FUCKED

Finally...
And I...
Was in my trap
And I...
Another guy
And a knife...

My milk is your shit
My milk is your shit
It's hard and boiled

And sour, all again
My milk is your shit
My milk is your shit
My milk is your shit
My milk is your shit
My milk is your shit
My milk is your shit
My milk is your shit
My milk is your shit
It revolves, it revolves
It revolves and around
And over all
Liver and bones
Liver and bones
Liver and bones
Liver and bones
With the Ramones
Come out and smile
And I'll watch when

My milk is your shit
My milk is your shit
My milk is your shit
My milk is your shit
My milk is your
My milk is your
My milk is your shit

My milk is it
Psst... got to get all of it
Cause I can't fight
