"Catch The Next Dream"

Visit "[Catch The Next Dream](#)" on MotoLyrics.com

Hey baby, it's beginning to feel
Like we've been spinning our wheels
Hangin' round this town too long
Why don't we catch a ride
Sail away on the outbound tide
It's time that we be movin' on
Let's catch the next dream outta here
Close our eyes and disappear
We'll say so long and we'll be gone
On the next dream outta here
Were as free as the night is young
To go as far as our hearts can run
Let's set our sights on paradise
Throw caution to the wind
And never look back again
We'll ride our love on through the night
Chorus
We'll say so long
And we'll be gone
On the next dream outta here
On the next dream
On the next dream
On the next dream
On the next dream
Just close your eyes
And we can ride
Oooohhhoawhoo
On the next dream
On the next dream outta here
We can ride
Oooohhhoawhoo
