"Down That Road Tonight"

Visit "[Down That Road Tonight](#)" on MotoLyrics.com

Seems like lately we're losin' touch
Work to hard and worry too much
I think it's time for me and you
To get back to what we used to do
We'd steal away on a Saturday night
Meet in the field when the time was right
Just us two and a starry sky
Felt like paradise

I said Ooh Baby goin' down that road tonight
I said it's too crazy need to hold each other tight
Thinkin' maybe the moon stills shines as bright
Like it did back then, it'll shine again
Down that road tonight

Remember all the songs that we used to know
Dancin' in the dark to the radio
Lost in the rythmn, kickin' up some heat
The memories are still so sweet
Time's gone by but it's plain to see
I still love you and you still love me
Let's shake these troubles put 'em all aside
C'mon we're gonna take that ride

I said Ooh Baby goin' down that road tonight
I said it's too crazy need to hold each other tight
Thinkin' maybe the moon stills shines as bright
Like it did back then, it'll shine again
Down that road tonight
Down that road

[repeat to fade]
