(Hofstede/Kloet/Stips - Hofstede)
The highway ended and he got out
His one good ear to the ground
(But where is) the magic of Lassie
I've got a feeling that
She's been away too long
A voice out of heaven said: quarter past seven !
The sand is running quickly through an hourglass
(But where is) the magic of Lassie
I've got a feeling that
She's been away too long
Think what it means to be an animal
Crossing a highway, all the channels are weak tonight
The magic of Lassie
I've got a feeling that
She's been away too long
